Mouser and Amphenol TCS Initiate Worldwide Distribution Agreement

Mouser Electronics today announced a new partnership with Amphenol TCS. Amphenol TCS designs integrated interconnect solutions for applications in the networking, communications, storage, and computer server markets.

This new accord will enable design engineers to achieve their performance targets by providing rapid access to Amphenol TCSs extensive range of connector products with Mousers fast and convenient ordering capabilities and library of the latest product information and data. The product line includes a diverse range of high-speed backplane and mezzanine connectors including the InfinX and NeXLev families that are designed to meet the increasing bandwidth demands of parallel board to board interconnection. Capable of support 25+Gbps and 12.5Gbps respectively, the InfinX and NeXLev connectors are optimized for differential signalling and offer the reliability of BGA attachments.

"Were pleased to have Amphenol TCS as a supplier partner," says Krystal Jackson, Mousers Vice President of Interconnects. "With Amphenols focus on the latest communication protocols, our global customer base of design engineers will be able to find the connection solutions that they need for their newest designs."

"Mousers fast and easy ordering process and global presence make them the premier partner for product distribution," states Dave Castelli, product manager of Amphenol TCS. "With their dedication to customer service and product excellence, they distinguish themselves as the perfect fit for our own business strategy."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering Whats Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the worlds widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase.

Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.
