About Us:

Established in 2006, Components Direct leads the industry in 100% guaranteed product traceability with no OEM, EMS, or broker owned inventory. Components Direct is an authorized end-of-life and obsolete distributor for several leading manufacturers, including Atmel, IDT, International Rectifier, Marvell, Maxim, Micrel, Nvidia, PMC Sierra, Xilinx, and more.

As an Avnet affiliated company, Components Direct is a primary channel for all of Avnet's excess, obsolete and unsold factory stock. Components Direct also has access to Avnet's exceptional logistical facilities across North America and Asia as well as a broad based line card of over 150 authorized manufacturers.

As an authorized source for electronic components, when you purchase with Components Direct you can be assured that: - We deliver the highest service and reliability to our suppliers and customers - All inventory was obtained directly from the supplier/manufacturer or from their authorized channels - All inventory has been handled and stored in accordance with the highest industry quality standards.

Our flexible, customer-friendly webstore ensures that buyers are able to find the parts they need quickly and with the peace of mind that comes from dealing with a certified source.

- Authorized channel with 100% product lineage and traceability
- Broad product line offering full reels, older revisions, broken packages, sample buys
- Downloadable datasheets as well as real time availability with competitive online pricing and same-day shipping
- State of the art warehousing and logistics certified to ISO 9001, 14001, ESD 20.20, IEC 61340-5-1 and TAPA Class A standards
- Factory authorized source for one or two time buys and factory shortage needs.
