ams and Mouser form worldwide distribution partnership

Unterpremstaetten, Austria (23 January, 2013), ams AG and Mouser Electronics Inc. announced a new distribution partnership. ams provides innovative solutions to the most challenging applications that require extreme precision, accuracy, dynamic range, sensitivity and power efficiency.

“We have always been dedicated to forming strategic partnerships with companies that share our forward-minded business vision,” says Mike Scott, Vice President of Semiconductors with Mouser Electronics. “With state-of-the-art products from ams, and our uncompromising attention to fast, efficient distribution and prompt, helpful customer service, the partnership between our two companies will provide the highest quality solutions for design engineers worldwide.”

“As a progressive electronics distributor serving the needs of design engineers worldwide, Mouser is very well qualified to introduce our product lines worldwide,” says Eric Janson, Vice President of Sales at ams. “We pride ourselves on designing and manufacturing a useful, intuitive array of solutions for customers, and Mouser’s business strategy is perfect for bringing our solutions to the engineers designing the technology of the future. We have high expectations for what this partnership will accomplish in years to come.”

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering what’s next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world’s widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics’ website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.
