Cable assemblies fit wide range of coaxial connectors

50 and 75 ohm RG cable assemblies from Electronic Assembly Manufacturing (EAM) can be supplied with a range of coaxial connector types, including 7/16, BNC, Type N, MCX, MHV, SHV, TNC, UHF, MMCX, and MIL-qualified connectors for harsh environments. Cable sizes include outside diameters of 0.098, 0.195, and 0.390 in., and assemblies can be manufactured to meet a host of mechanical and electrical requirements. Operating temperature is from -55°C to 200°C, shielding effectiveness is between 40 dB and 60 dB, with low attenuation through 10 GHz for most cable assemblies.
