Handheld current probes include highest frequency range available on the market

Cal Test Electronics today introduced the new CP6000 Series, a four-model family of ELDITEST AC/DC oscilloscope clamp on current probes with the highest frequency range available on the market.

The CP6000 family features:

- Operating bandwidth ranging up to 1.5 MHz
- Dual-range selectivity
- Over-range indicator
- Current capability ranging up to 100 A
- Compact, stylish body
- Power adapter or battery power for portable usage
- Power adapter is available with either North American (NA) or European Union (EU) connectors.

Along with the current probes, kits include an insulated BNC cable assembly for scope connection, BNC to banana plug adapter, selected region power adapter and

user manual.

Specifications:

Current (DC + peak AC)	100 A	50 A	70 A	40 A
Bandwith	300 kHz	500 KHz	1 MHz	1.5 MHz
Max Voltage	600 VAC RMS CAT II	600 VAC RMS CAT II	300 VAC RMS CAT III	300 VAC RMS CAT III
Max Cable Diameter	11 mm (0.43”)	11 mm (0.43”)	10.3 mm (0.4”)	10.3 mm (0.4”)
List Price	$346.80	$448.80	$714.00	$816.00

The series is marketed under the time-honored ELDITEST brand name in both North America and the European Union.
