Brushless Fans feature static pressure as low as .83 in

With .83 in to 1.2 in static pressure, two new sizes in the "REVOLUTION" series of brushless DC fans from Jaro Thermal achieve up to 316 cfm. The new sizes include 140 MM2 x 51 MM and 120 mm2 x 38 mm. The fans' rated voltage is from 12 VDC to 24 VDC, while the operating voltage range is from 10.8 VDC to 26.4 VDC.

Other features include: start-up voltage from 7 VDC to 14 VDC, rated current from 1.5 (1.85 MAX.) A to 2.3 A +10%, rated power from 36 (44.4 MAX.) W to 27.6 w, and rated speed as high as 6000 RPM ± 10%.
