

Are You Interested in a Clean Energy Career?

Energy Savers Blog

This week, Eric talked about several ways for kids and adults to [learn more about clean energy and prepare for a career](#) [1] in this sector. From [America's Home Energy Education Challenge](#) [2] to the [Industrial Assessment Center](#) [3] program, there are many ways to get excited about a career in clean energy.

What do you think? Are you or your children interested in pursuing a clean energy career? Why or why not? If so, what are you interested in?

Each week, you have the chance to share your thoughts on a question about energy efficiency or renewable energy for consumers. Please comment with your answers, and also feel free to respond to other comments.
