What Do You Think About Solar Decathlon?

Energy Savers Blog

Solar Decathlon 2011 ran from Sept. 23 - Oct. 2, and the event was a great success! This week we highlighted a story from the Solar Decathlon News Blog, which announced Appalachian State University as the [winner of the People's Choice award](#) [1]. Drew gave us a thoughtful recap of the event and reminded us [why DOE sponsors this bi-annual event](#) [2]: Because the results can transform the world by using today's renewable technology to build the houses of tomorrow.

Did you get a chance to see the houses, or did you follow the teams on Facebook [3] or their website [4]? What did you think of the event?

Each week, you have the chance to share your thoughts on a question about energy efficiency or renewable energy for consumers. Please comment with your answers, and also feel free to respond to other comments.
