technology. Available types include thin-film, SMD, and ceramic wirewound, in resistance values of Pt50, Pt100, Pt200, Pt500, Pt1000, Pt2k, and Pt10k. Platinum temperature sensors are available for operation over the temperature range of -200 to +1000 Deg C. Application areas include transportation, life sciences, appliances, HVAC, and precision temperature sensing in a variety of other applications.
