

# Xenos Enterprise Server Earns Intel Certification

The Associated Press

Xenos Group Inc (<http://www.xenos.com/>) . (TSX: XNS) today announced that the Xenos Enterprise Server(TM) has been certified through the Intel@ Certified Solutions Program.

The Intel Certified Solutions Program leverages the SpikeSource Solutions Factory(TM), a proven automated platform for assembling, testing, packaging, and updating software solutions. The certification ensures that Xenos provides the highest levels of security while reaffirming the fact that Xenos Enterprise Server (ES) is enabled for Intel technologies and free of all known significant security vulnerabilities.

"Xenos worked closely with SpikeSource Solutions Factory to certify the Xenos Enterprise Server," said Jeff Williams, Director of Product Management for Xenos. "The Intel certification enables us to provide continued confidence in the security and multi-core scalability of Xenos ES on Intel hardware."

The certification allows Xenos Enterprise Server to provide customers with the following significant business value:

/T/

- Peace of mind with a quality, more secure Enterprise platform
- Ongoing security and quality improvements
- Multi-Core scalability on Intel-certified CPUs
- Increased customers' trust and confidence

/T/

### About Intel Certified Solutions Program

The Intel@ Certified Solutions Program, a key component of Intel Business Builder, is a powerful benefit for members of the Intel@ Software Partner Program. It allows Partner Program members to certify their solution for specific Intel technologies and demonstrate that their solution has met specific security standards. Certified solutions are awarded the Intel Certified Powered by SpikeSource logo, a mark of distinction that enhances customer trust.

### About Xenos Group Inc.

Xenos (TSX: XNS) is the market-leading provider of high-performance software
