

CandM Corporation Bolsters Sales and Marketing and Engineering Departments

1888 Press Release

Ron Crouch has joined the company in the role of Applications Engineer. A veteran of over thirty years in the industry, Crouch has held engineering positions at Brand Rex, Montrose, Tyco, and Belden. He was instrumental in the design of the original IBM Cabling System, the forerunner of today's Ethernet based systems. In his new role, Crouch will be responsible for project management and product development. He holds an electrical engineering degree from Thames Valley State College.

Additionally, C&M has appointed Danielle Braley as the new Military and Renewable Energy Market Manager. Prior to joining C&M Braley led the North American Fire Protection Business unit at Draka Cableteq. She has also held positions in the engineering department at Polaroid. Braley will direct C&M's Military Market offering, which presently features C&M's MMIP? product line, as well as the company's Renewable Energy Market portfolio, which currently includes the Helios Spine Cable? and Greenlinx? product families. Braley attended Emerson College.

C&M Corporation, headquartered in Wauregan, CT, is an integrated manufacturer of bulk cable, coil cords, and cable assemblies (both molded and mechanical). C&M offers manufacturing options in the US, Mexico, and China and produces a wide range of cable interconnect solutions for the Industrial, Multi-media, Renewable Energy, Military, Medical, Data Collection, and Datacom/Telecom marketplaces. C&M is a leader in providing engineered interconnect solutions through reliable customer service, world class quality systems, and a wide breadth of manufacturing capabilities that include bulk cable production, internal mold tool fabrication, and innovative assembly constructions. For more information call 860-774-4812 or visit C&M at www.cmcorporation.com. ###
