

## Earns schedule for video game companies

The Associated Press

In mid-July, companies in the video games industry will begin releasing their earnings reports for the latest quarter. It will generally cover the April-June period, though many companies in the industry have fiscal quarters that depart from that.

Here's a schedule for selected companies that make or sell video games. Dates for many companies, including Activision Blizzard Inc. and Electronic Arts Inc., are not yet known.

July 19: Microsoft Corp.

Aug. 2: Sony Corp.
