

Design Talk Live: Johnson Controls to improve energy efficiency at Fort Bliss

Submitted by Guest (not verified) on Wed, 01/25/2012 - 6:49am

Johnson Controls and the U.S. Army announced a federal contract for a solar energy installation and other energy efficiency improvements at Fort Bliss. The nearly \$16 million project, executed through the U.S. Army Engineering and Support Center in Huntsville, Ala., is expected to save the post \$39 million in energy costs over the next 24 years.

In this edition of Design Talk Live!, ECN's Technical Editor, Jason Lomberg, chats with Mark Wagner, Vice President of Government Relations at Johnson Controls, about the company's new project and other initiatives.
