

## Designer ABS Enclosures(2)

TEKO's 'OVOTEK' cases are designed for the latest hand-held and portable electronics. These plastic enclosures feature advanced ergonomics for comfortable handling and operation of the controls during use. Applications include remote control devices, peripherals, measurement instruments, and medical and wellness equipment. These cases can be used for mobile battery powered devices or as control units cable-connected to a machine. The cases are molded in off-white or black ABS (UL94 HB), have external dimensions of 6.49" x 4.05" x 1.50", and are assembled with four self-tapping screws. Two versions are offered with smooth domed top part, or flat top part with a recessed area for mounting a membrane keypad, 4.3" TFT display or product label.
