

Precision Thin Film Chip Inductors

RCD Components Inc. introduces its TFI Series of thin film surface mount inductors that have exceptional temperature stability, high Q and inductance tolerances to 1 percent in small sizes. Suitable for critical circuits, the series is appropriate for use in high frequency circuits, GPS, VCO, TCXO, wireless LAN, Bluetooth modules and filters. The company offers its ABSolute ZERo Defect guarantee (ABZED) on all of its products.
