

CEC/Energy Star-Compliant Desktop Supplies Provide 180W of Power

Protek Power North America's PUP180 Series of CEC and Energy Star-compliant AC/DC desktop power supplies provide 180W of power for monitors, computers, networking equipment, test equipment and printers. The lightweight, 6.69" x 3.35" x 1.60" supplies in a convection cooled package specify a power factor corrected universal input and single output models. Standard protection circuitry includes overvoltage, short circuit, and thermal protection. The units draw <0.5W of power at no load and achieve average efficiencies of 85 percent to 87 percent. The supplies are UL/CSA/TUV safety certified to worldwide EN60950-1 standards, are CE Marked, and are compliant with RoHS requirements. Pricing for the PUP180 Series starts at \$60.50 in OEM quantities.
