

Toggle Switch Delivers 2 Horsepower

Having a UL- and cUL-rating of 20 A at 125 VAC, Phaseda's HY29 Series power toggle switches present a horse power rating of 2 with availability in single-pole and double-pole versions. The TUV-approved component offers functions including ON-OFF, ON-ON, ON-OFF-ON and (ON)-OFF in industrial control applications. The RoHS-compliant switches offer terminals with a 0.25 quick connect or solder lug as well as a dustproof and waterproof rubber boot and nameplate.
