## **Foot Switch Eliminates Stress**

Having a cast aluminum cover, Linemaster Switch's Linemaster Junior foot switch is said to eliminate lower leg stress and pain after many hours of usage while standing or sitting. The device is suitable for applications including communication equipment, conveyors, terminal application equipment, computer software programs and soft-serve ice cream machines. The 12" or 24" wide switch offers options including a water-proof interior switch rated to IP68 standards, private labeling, custom paint finishes and custom-built cordsets.
