

Flex Jumpers Include Edge Card Connectors

Coming in vertical, horizontal, or edge mount designs on a 0.8 mm pitch, Samtec's HSF8 Series rugged high-speed flex jumpers offer a choice of mating micro edge card connectors. The components come in standard lengths of 5" and 10". The jumpers include 14 and 32 differential pairs (7 and 16 signal pairs per side (-DP)), and 20 and 50 signal single-ended pins (10 and 25 signal pins per side (-SE)). Custom assemblies are available upon request.
