

## DC/AC EL Inverters Serve Lighting Apps

Acting as plug-and-play solutions, Endicott Research Group's (ERG) JLA and LPS Series Smart Force DC/AC EL inverters power electroluminescent (EL) backlit LCDs in accent and decorative lighting. The vacuum-encapsulated instruments automatically adjust operating voltage and frequency as the lamp ages and changes. The devices can come in a P package. Pricing starts at \$5.83 each in 1,000 quantities and \$5.59 each in the P package.
