

DC-AC Inverter Backlights Two LCD Panels

Designed specifically for use with 10" to 17" industrial-grade LCD panels, the LS6D-1012A-RH DC-to-AC inverter from Taiyo Yuden provides dual LCD panel capability. It features brightness/backlight on-off control. The RoHS-compliant backlight driver provides an input of 12 Vdc and an output current from 3.3 aArms- 6 mArms per lamp. Total device power output is 5 W per lamp. Other specifications include 1,500-Vrms minimum start-up voltage, 2-A maximum input current, and operating and storage temperature ranges from -20°C to 70°C and -30°C to 85°C, respectively. Priced at \$38.80 each.
