

Switch Guards Protect Against Accidental Actuation

Mounting

flush into the panel, the HP series of recessed push button switch guards from APEM Components protects against accidental actuation. The guards fit into a 22 mm round panel cut-out. Available in momentary and maintained functions, the switches are offered in 7 actuator colors. The series is rated for 100 mA at 24 VDC with an expected life of 200,000 cycles, and 2 A at 125 VAC with an expected life of 10,000 cycles per UL 1054.
