

# Transistors Feature Maximum Collector Current of 200 mA

The CMBT3904E (NPN) and CMBT3906E (PNP) 40 V small signal transistors from Central Semiconductor feature a maximum collector current of 200 mA. The SOT-923 surface mount package has a maximum profile (height) of 0.41 mm and occupies 1.1 mm x 0.65 mm of board space. This package has a power dissipation of 100 mW and is RoHS compliant. From \$ 0.068 each for 8,000 pcs on tape and reel.
