20-A Brazilian Plug and Connector are Rewireable

Interpower Corporation has expanded its plug, socket, and connector product line to include Brazilian rewireable plugs and connectors. The company offers a 20A/250VAC rewireable plug 88040300 and connector 88040310 for use in Brazil. These products are approved by INMETRO, and are tested by TUV. The mating 20A plug and connector offer a special locking feature for safety.
