

foxL Small Portable Bluetooth Hi-Fi Speaker for BBQs & Beach Parties

Soundmatters announced it is delivering foxLTMv2 Bluetooth for iPad, the ultimate wireless portable speaker for the iPad. The perfect iPad travel companion, foxL Bluetooth is the first pocket-sized wireless speaker that audio purists will love, with a range of unique sound features, such as foxL's patented "Twoofers," "BassBattery," and other technologies that provide a smoother deeper bass and an "open & airy" listening experience that provide iPads and other products with the superior sound quality they so desperately need to let you enjoy your portable movie and music experience to the fullest.

Amazingly Good HiFi Bluetooth Music Streaming in a Tiny Package

Priced at only \$199 and incredibly small at 5.6" wide x 2.2" high x 1.4" deep with 8 hours of rechargeable battery-time, foxL Bluetooth features a full range of audio output from 80Hz - 20kHz with real bass for amazingly good Bluetooth music streaming in a tiny package that fits with your portable lifestyle. With the latest v2 of foxL Bluetooth, all iPad and other Bluetooth devices (including iPhone, iPod touch, laptops, portable gaming, and Bluetooth/music phones) will experience longer battery life and improved Bluetooth due to the updated 2.2 circuitry.

foxLv2 Bluetooth for iPad Features:

- Patented Audio Technology: provides more audio output for louder, distortion-free sound.
- Features patented Dual 1-inch Linear Magnetic Drive™ "Twoofers" more likely found in large expensive hi-fi speakers for remarkable clarity and range.
- Patented "BassBattery™" Technology turns the battery into a woofer for smoother deeper bass.

- “DomeForward™” driver alignment and high-transparency acoustic grill provide an “open and airy” listening experience, typical of good home speakers.
- Built-in Noise-canceling Mic: for “business quality” wireless speaker phone/conferencing.
- Bluetooth Music Streaming: provides surprisingly high-quality Bluetooth stereo with auto pairing and even shows up in the iPad’s AirPlay menu.
- Plays & Charges Anywhere: Along with its patented re-chargeable built-in woofer/battery (for up to 8 hours of play), it plays and charges with the included universal AC charger (with four international adapters) and included USB cable.

foxL and iPad - Match Made in Heaven

“foxL and iPad is a match made in heaven. foxL augments the iPad with its shockingly good sound quality, portability, excellent battery life and simple, intuitive operation,” said Lee Adams, Vice President, Soundmatters International, Inc. “Ultra-compact, with a sleek industrial design, foxL brings musical clarity and the full impact of your movie’s soundtrack to your iPad experience...anywhere.”

Pricing & Availability

The foxLv2 Bluetooth for iPad and other Bluetooth devices is priced at \$199, available immediately through major online retailers, including Hammacher Schlemmer, Sharper Image, Music Direct, Amazon.com and more, as well as through the Soundmatters site at: www.soundmatters.com. foxLv2 Bluetooth for iPad comes with the portable speaker, re-chargeable built-in woofer/battery, universal AC power charger, four international charger adapters (for US, Japan, Europe/China, UK/HK, and AU/NZ), USB computer charging cable, stereo 3.5mm audio cable, wrist strap, travel pouch, anti-slip mat, and manual. In addition, Soundmatters provides a wired version of foxLv2, priced at \$169.

Award-Winning foxL Line of Portable Speakers

The foxL line of portable speakers has won numerous industry awards and accolades, including Time Magazine’s “Top 10 Gadgets of the Year.” Sound & Vision said it is “the absolute best gift ever for the audiophile...fundamentally changes how and where we can enjoy great sound...it’s that good!” And CNN said, “So, travelers of all stripes, or any of you looking for a small system for your room or office that can fit in your pocket and go for a good long time on a full charge, this is ultimate gear.”
