

Amulet resistive 4.3" GEMstarter-kit

The Resistive 4.3" GEMstarter-kit kit provides everything needed to create a GUI and drive a color display, including a 480 x 272 TFT LCD, an integrated touch panel and controller board, stylus, and USB PC interface cable. The GEMstarter-kit comes with a free 30-Day Trial of GEMstudio, Amulet's embedded graphical user interface (GUI) design tool.
