

DC-DC converter modules feature 4200 VAC isolation with supplementary, reinforced insulation

Power Sources Unlimited, Inc.

announces the new THB-10 Series of high-isolation DC-DC converter modules in an industry standard 2" x 1" package. The THB-10 series is a family of high performance 10 watt DC-DC converter modules that feature 4200 VAC isolation with supplementary, reinforced insulation and are safety approved to IEC/EN/UL 60950-1 industrial and IEC/EN/UL60601-1 3rd edition medical safety standards. There are 12 standard models of 5, 12, ± 12 and ± 15 VDC fully-regulated single or dual outputs. Product highlights include 2:1 wide input voltage ranges of 9-18VDC, 18-36VDC and 36-75VDC, overload protection, continuous short-circuit protection and 2x MOOP rating. The operating temperature range is specified for -40°C to $+85^{\circ}\text{C}$ and all models have an internal input filter to meet EN 55022, class A.

The THB-10 series offers an economical solution for demanding applications in industrial and medical instrumentation requesting a certified supplementary or reinforced insulation system to comply with industrial or the latest medical safety standards.

Units start under \$37 in OEM quantities. Prototypes are available in 2 weeks. All Traco Power products are backed by a 3 year warranty.

PSUI is the ISO 9001:2008 North America Authorized Distributor for Traco Power.
