

## Small 15W Industrial Switcher

The Mean Well RS-15 Series Industrial Switcher from PowerGate offers 15W of single output power in 2.44" x 2.00" x 1.10" caged enclosure. The power supply operates on both Universal AC Input (85V AC to 264V AC) and 120V DC to 370V DC Input voltages. It uses 105°C long-life capacitors for improved reliability with an MTBF in excess of 1.6 million hours (MIL-HDBL-2175 / 25°C). The supply offers single output voltages ranging from 3.3V DC to 48V DC with -5/+10 percent adjustment ranges. An operating temperature range of -20°C to +70°C with convection cooled operation make this supply easy to use in practically any application. The power supplies are RoHS compliant have been safety approved to UL/cUL60950-1, TUV EN60950-1 and CB EN60950-1 and bear the CE Mark (LVD).
