## 1U Rackmount Computer Offers I/O Expansion

Providing serial, digital, and analog I/O expansions in the front and rear on a 1.75" chassis, Sealevel Systems' Relio R4000 rackmount computer features dual 10/100BaseT Ethernet, two high-speed USB 2.0 ports, four serial ports, keyboard and mouse ports, and analog video. Powered by an internal 100-240VAC power supply, the TTL interface compatible device runs applications from CompactFlash and operates over a temperature range from 0 to 50°C without fans. The solid-state operating computer comes in Intel 1.4 GHz Pentium M, 500 MHz AMD Geode LX800, and 1.0 GHz ULV Intel Celeron M models. Pricing starts at \$999.
