

Green Power Supply Outputs 12W

Meeting the Environmental Protection Agency's Energy Star Level IV criteria and the new Energy Independence and Security Act of 2007 (EISA) requirements, SL Power Electronics' PW149RB Series external power supplies offers a single output range from 10W to 12 W. The CE-compliant devices has a 100V to 240V AC universal input and comes in eight models ranging from 5V to 48V. The supplies measure 3.35" x 1.81" x 1.30" (85 mm x 46 mm x 33 mm) and can be custom designed to meet OEM requirements and private-label marking needs. Pricing starts at approximately \$7.50 in OEM quantities.
