

Power Supplies Meet International Efficiency Requirements

Addressing "green" regulation in countries such as North America, Europe, U.K., Australia, China, and Korea family of interchangeable-blade AC/DC wall-plug power supplies from GlobTek is available in versions providing regulated outputs from 5 V to 48 VDC (in 0.1-V increments). The 64.0 x 40.5 x 29.0-mm constant-current 6-W GT-41076, 15-W GT-41052, and 25-W GTM41060 have double-reinforced insulation and overcurrent, overvoltage, and overtemperature protection. All Models carry UL, TUV and T-Mark logos and CE-Mark.
