

AC/DC power supplies provide up to 24W of power

The Power Partners PPWAMW24 Series of AC/DC power supplies provide up to 24W of power from a 90-264VAC input and offer output voltages from 5VDC to 48VDC.

The base desktop power supply is housed in a super compact 3.1" x 2.0" x 1.4" case size with a C8 AC inlet and features the option to add interchangeable input plugs to convert the PPWAMW24 Series to a wall mount configuration for worldwide use. There is a power-on LED indicator.

The Series is compliant to the highest standards for operational efficiencies and no load standby power. Comprehensive protection circuitry, including overvoltage and short circuit protection, is inherent in the design. Compliance certification is done to worldwide 60601-1 safety standards and Class B radiated and conducted EMI. MTBF is specified at >150,000 hours at full load.

Some modifications to standard designs can be considered. Units are economically priced at less than \$18.00 in OEM quantity, with delivery from stock to 14 weeks ARO.
