

The System x X5 Difference IBM Innovation on Industry Standard Servers

Submitted by Guest (not verified) on Mon, 01/31/2011 - 10:21am IBM

For years, Industry Standard Servers have benefited organizations, but those days are over. This white paper shows how IBM eX5 systems allow organizations to combine the full advantages of Intel's Xeon processors with the latest and most advanced System x features—allowing companies to do more with fewer servers and achieve better system utilization and energy efficiency.
